

No Boundaries

Global Convergence Inc. (GCI) offers global implementation programs to OEM manufacturers of technology products and also to Commercial End User (CEU) clients of information technology solutions.

GCI's global implementation programs are out-of-the-box solutions that include:

- Project Management
- Onsite Implementation and Transformation Services
- Scope of Work based Program Delivery

The offering can be customized to meet specific market and business requirements of manufacturers and also be customized for the CEU who may also have a need for a single source partner capable of delivering implementation services worldwide.

Global implementation programs can scale to any volume and are intended to be delivered either with Global Convergence, Inc. as a 'white label' partner that represents the manufacturer when onsite implementations occur, or directly to a Commercial End User client as applicable.

Our Expertise

Global Convergence Inc. (GCI) is specialized in multi-vendor, multi-technologies and our global implementation programs can be customized for any technology product set worldwide.
