

Site Surveys  
 Site Assessments  
 Design  
 Implementation

Global Convergence Inc. (GCI) offers a number of service solutions that are focused on helping customers plan, identify and prepare for the functional elements required to execute a successful transformation for disparate or new and disruptive technologies.

- Site Assessment & Site Survey**  
 Identify and document current status. Establish baseline for performance assessments and remediation opportunities. Wireless site surveys to document AP locations and define the Bills of Materials requirements.
- Design**  
 Partner with customers to develop new network design, required products, infrastructure, and transformation plan based on network topology, business requirements, applications and other factors.

- Implementation (Transformation)**  
 Physical implementation of the environment to the new design. Achieve successful operational status and delivery of targeted design.

## Our Expertise

Global Convergence Inc. (GCI) is specialized in multi-vendor, multi-technologies. GCI Transformation Services are supported in North America, Canada, Mexico, EMEA, APAC and LATAM.
