

# Implementation Services - Site Survey & Assessment

## Implementation Services to Fit Your Needs

In a constantly changing complex network environment, deploying cutting-edge technologies, solutions and products can be daunting. GCI's implementation services can simplify this process, allowing you and your staff to focus on your core business.

GCI can help you design, build and execute an implementation plan that includes readiness, deployment, migration, integration, transformation and ongoing support.

## Site Assessment & Site Survey

GCI can identify and document current status, and establish the baseline for performance assessments and remediation opportunities. Also, GCI can conduct Wireless site surveys to document AP locations and define the Bills of Materials requirements.

## Design

GCI partners with customers to develop a new network design, required products, infrastructure, and transformation plans based on network topology, business requirements, applications and other factors.

## Implementation (Transformation)

Physical implementation of the environment to the new design. Achieve successful operational status and delivery of your targeted design.

## Our Expertise

Global Convergence Inc. (GCI) is specialized in multi-vendor, multi-technologies. GCI Implementation and Transformation Services are supported in North America, Canada, Mexico, EMEA, APAC and LATAM.

GCI has been named to the prestigious MSP 501 List at #59.

## Network Transformation Services

### Site Surveys & Assessments

- Project Manager Required
- Resources to execute targeted surveys
- Related Reports, Maps and Topology Summaries
- Wireless Spectrum Analysis if applicable
- May include use of performance assessment tools
- Written Recommendations

### Design

- Consultation Services delivered by qualified and technology-specific Subject Matter Experts (SMEs)
- ISO 9001:2015
- ISO 27001:2013
- SOC 1 Type II & SOC 2 Type II Attestation
- EU-U.S. Privacy Shield Framework program

### Implementation

- Project Manager Required
- Project specific implementation plans, design documents and testing plans
- GCI Project Management Web Portal
- Onsite field resources: design, testing, staging and configuration resources if applicable
