

Implementation Services: Wireless Site Survey, Design, Assessment

Implementation Services to Fit Your Needs

In a constantly changing complex network environment, deploying cutting-edge technologies, solutions and products can be daunting. GCI's implementation services can simplify this process, allowing you and your staff to focus on your core business. GCI can help you design, build and execute an implementation plan that includes readiness, deployment, migration, integration, transformation and ongoing support.

Design

GCI partners with customers to develop a new network design, required products, infrastructure, and transformation plans based on network topology, business requirements, applications and other factors.

Implementation (Transformation)

Physical implementation of the environment to the new design. Achieve successful operational status and delivery of your targeted design.

Wireless Site Surveys

To successfully support today's mission-critical wireless applications, a proper design is imperative. Start with a comprehensive wireless site survey from Global Convergence.

GCI has extensive capabilities to provide wireless technology and global coverage to our customers.

Our wireless core competencies span multiple environments and include:

- Wireless engineering, consulting, design, deployment and validation of wireless networks
- Identity and access management
- Data privacy and encryption
- RTLS/Location services

GCI has extensive experience in conducting assessments to ensure wireless performance.

Wireless Site Survey & Assessments

Wireless Design

- Project Manager Required
- Periodic Health Checks to ensure your wireless network is keeping up with evolving applications, devices and security policies
- Related Reports, Maps and Topology Summaries
- Wireless Spectrum Analysis if applicable

Wireless Network Services

GCI helps you plan, design, deploy and monitor your wireless network. Our team of certified wireless engineers follow a proven methodology to provide a comprehensive network design that will deliver both capacity and performance.

Wireless Network Security

GCI's certified engineers can provide complete wireless security audits and share security best practices to ensure customers are properly protected. Identity Management and Secure Access for Guest, BYOD and Corporate devices are provided through industry standard Network Access Control Solutions.

Implementation Services: Wireless Site Survey, Design, Assessment

Multiple Types of Wireless Site Surveys:

Wireless Network Design types to implement a new wireless network or replace old technology:

- ✓ **Onsite** Greenfield wireless surveys
- ✓ **Offsite predictive** wireless surveys
- ✓ **Hybrid** wireless surveys
- ✓ **Network Augmentation** wireless surveys

Post Installation Validation Surveys to verify coverage and capacity.

Wireless Assessments designed to analyze existing networks that are experiencing issues or to identify performance gaps.

GCI's project managers are highly qualified, and GCI has extensive experience in successfully deploying large, global and geographically diverse networks.

Our global deployment and network transformation portfolio offer clients:

- Site Survey and Assessment
- Architecture and Design
- Configuration to Order and Product Assurance
- Project Management
- Implementation and Global Transformation
- Onsite and Remote Staff Augmentation Solutions

Governance as a Game-Changer

GCI delivers unprecedented value to its customers with an intense focus on governance and seamless alignment to internal processes.

GCI employs a consultative and highly collaborative approach to support business challenges. We listen. We respond. Our innovative and out-of-the box thinking drives process improvements and builds trusted partnerships with our customers.

GCI Certifications

GCI has invested in universally accepted standards and has achieved certifications for ISO 9001:2015, ISO 27001:2013, SOC 1 Type 2 and SOC 2 Type 2.

Additionally, GCI has certified for the EU-US Privacy Shield Framework program.

GCI was named to the prestigious 2019 MSP 501 List at #59.
